Supporting philanthropic endeavors around Iowa pays off in a big way for communities around our state. Tax credit programs administered by the Iowa Economic Development Authority help encourage these important philanthropic investments in community funds. IEDA is proud to administer the County Endowment Fund in cooperation with the Iowa Council of Foundations.

A Catalyst for Philanthropic Partnerships

Throughout 2024 we ask you to join us in celebrating the 20th anniversary of the County Endowment Fund Program and grantmaking of regulated licensed casinos in Iowa!

Since 2004, the Legislature has maintained their commitment to two unique programs which focus on increasing philanthropic activity to enhance the quality of life for Iowans. Both programs, the County Endowment Fund Program and the Endow Iowa Tax Credit Program, are implemented through local community foundations. Seventeen nationally accredited community foundations help administer both programs in each of Iowa's 99 counties.

The County Endowment Fund Program annually redistributes a percentage of commercial casinos' gaming tax revenues to counties that do not hold a state-issued gaming license. Of that annual distribution, the recipients grant 75 percent directly to local nonprofits and charitable causes in their communities and the remaining 25 percent is added to each county's unrestricted endowment fund to provide a permanent source of funding for future projects and programs. Each county's endowment fund is intended to attract additional donations and provide a permanent source of funding to support county and community needs forever. Since its inception, over 36,884 grants have been made to invest over \$148 million across Iowa.

Alongside this investment, the Endow Iowa Tax Credit Program has leveraged over \$411 million in gifts to permanent endowed funds in Iowa. Together, these programs have helped secure more than \$318 million in endowed assets at community foundations in the state. These endowment funds ensure nonprofits and counties have a sustainable source of philanthropic revenue that will help create positive change in their communities for years to come.

In addition to the work of community foundations, regulated licensed casinos in Iowa are required to contribute a portion of their revenues to area nonprofits and community projects through a Qualified Sponsoring Organization (QSO). These investments provide millions of dollars to fund projects in counties that do hold state-issued gaming licenses and beyond.

Working together, these grantmaking activities support each of Iowa's 99 counties and are a catalyst for significant philanthropic and public-private partnerships. These grants support a wide variety of needs in Iowa communities including: human services, education, health, the arts, the environment, and community/public benefit. A detail of casino grantmaking and County Endowment Fund Program grants for 2022-2023 are highlighted in this annual report.

The innovative programs endorsed by our state elected officials have allowed communities in Iowa to maintain their identities through historic preservation, while also shaping the future of their communities through funding projects, leveraging additional dollars, and enhancing economic and public-private partnership projects. We express our gratitude to the Governor and Legislators for their ongoing support for this vital work.

We invite you to connect with and learn more about your local community foundation and/or QSO and the transformative work happening now, which is sure to benefit many future generations of Iowans!

The County Endowment Fund Program (HF 2302)

The state of Iowa is unique in that it has two legislated programs focused on increasing philanthropic activity to enhance the quality of life for Iowans. Both programs, the Endow Iowa Tax Credit program and the County Endowment Fund Program, are implemented through local community foundations.

Created in 2004, the County Endowment Fund Program (HF 2302) is funded by a percentage of the state's commercial gaming tax revenue. Initially, the amount was one half of one percent (0.5%) of the gaming tax revenue; this was increased to eight-tenths of one percent (0.8%) in 2006. These funds are distributed annually to participating community foundations and affiliate community foundations associated with counties without a state-issued gaming license.

For more information about Endow Iowa visit www.IowaCommunityFoundations.org.

What Is a Community Foundation?

Community foundations are tax-exempt, nonprofit organizations established to meet the current and future needs of local communities. They are trusted and valuable resources for individuals, families, businesses, nonprofit organizations, and professional advisors working to build local philanthropy, with a focus on creating endowments for the long-term benefit of charitable projects and programs.

Community foundations provide grant support for a broad range of community needs such as arts and culture, health, human services, and historic preservation. Because a community foundation carries the status of a publicly supported nonprofit, it also grows assets through contributions from many donors. A community foundation often has numerous funds as part of its total assets. Scholarship funds, agency endowment funds, and donor-advised funds all allow donors to make a charitable impact in the area of interest to them. Collectively, nearly 1,700 Iowans volunteer their time and energy toward bettering their community through work with a community foundation in Iowa.

An affiliate community foundation is a component of a community foundation which is a fund or collective of funds advised by a group of leaders in a specific geographic area. For example, there may be eight community leaders in XYZ County who advise grants from a charitable fund and rely on a "host" community foundation to be responsible for all of the administrative requirements of those charitable funds. Most commonly in Iowa, community foundations that have affiliate funds approach the administration of those funds similar to administering an entire community foundation, but as a component of the larger, host community foundation. These funds are then monitored by a local collective of people from the geographic area being served.

How County Endowment Funds are Used

The County Endowment Fund Program stipulates that the countywide community foundations that participate in the program distribute 75% of the annually allocated funds to charitable projects/programs within their counties. The remaining 25% is used to build the unrestricted endowment fund for that county to provide future grant support.

Community foundation grantmaking is done at the local level. Each county develops its grant distribution process and involves local citizens to review and allocate funding to charitable projects/programs that impact a broad range of a community's well-being. Because of this local involvement, grant awards vary from year to year, based on current and emerging needs. Each of the 84 counties that participated in this program submitted reports to the Iowa Council of Foundations and the Iowa Economic Development Authority. These reports outline the grant award recipients and provide additional information about each community foundation; the results are outlined on pages 8 – 49.

Casinos' Nonprofit Organizations Provide Millions of Dollars in Grants Annually

Each of the 19 commercial casinos located in 15 Iowa counties is required to share its license with a Qualified Sponsoring Organization (QSO). These QSOs receive a contractual percentage portion from their respective casino's gaming revenue to annually reinvest in numerous charitable and civic need requests.

Each QSO operates with their own board of directors as an 'arms-length' decision making nonprofit entity. These QSO's each establish the criteria that is best suited to their region for the types of grants they will consider funding; their primary areas of emphasis vary based on what will best benefit their locales. 2023 continued to be an impactful year where these QSO's focused awarding their grants to help the most.

Thousands of grant applications are received each year requesting dollars for a diverse array of community and charitable causes. Considerable deliberation takes place by the respective board of directors to score these requests to then award millions of dollars to many worthwhile initiatives!

Categories include:

- Community Improvement
- Parks and Recreation
- Economic and Community Development
- Cultural and Historical Attractions
- Governmental and Libraries
- Public Safety
- Services Agencies and Human Services Healthy Families
- Environmental Education
- Youth
- Churches and Patriotism

On the following pages you will see a summary of those impressive grantmaking areas of emphasis from each casino QSO license holder. It would be difficult to list all their grants awarded in the space allowed on each QSO's page - they are all available to review; I encourage you to visit the Iowa Gaming Association's website at www.iowagaming.org, and click on "Members/License Holders" to find links to their grant application, guidelines, and archives of each of the recent years' grant distributions.

Similar to the many worthwhile qualified community county foundation grants featured in previous pages; this ongoing casino-QSO relationship has truly been a tremendous success story benefitting many Iowans - enjoy reviewing their summaries in the following pages!

Total Number of Grants Committed in 2023: 38

Total Amount in Grants Awarded in 2023: \$2,256,064

List of Primary Grant Emphasis Areas:

Community Improvement - Community improvement grant awards encourage municipalities in Black Hawk County to submit larger grant applications which focus on quality of life and enhance the image or appearance of their community.

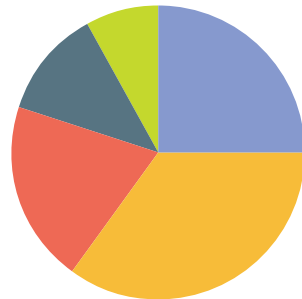

Public Safety - Public safety awards help keep residents safe and support in this category relieves the tax burden for cities. Funding also supports public safety equipment for fire, police, ambulance, and emergency management positions.

Libraries, Museums, Community Events, and the Arts - Public library facility improvements and equipment, museum capital projects and exhibits, and improvements for art/theater organizations make our organizations stronger, better places to live.

Human Service Nonprofit Organization and Education - Qualified 501c3 and 501c19 organizations with a focus on meeting a variety of basic human needs are funded in this category. Organizations which provide a commitment to improving the overall quality of life in the service area are considered for funding in this category. This category also includes support to projects benefiting education.

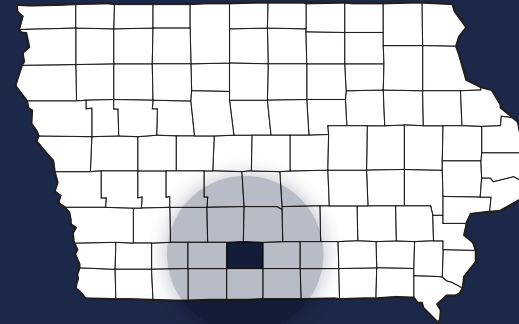

Parks/Recreation/Sports-Related Projects - Investments in quality of life and community vitality projects benefit the entire service area. Whether it is investing in signature projects like the Cedar Valley Sports Plex or support for parks, trails, and nature centers in the service area funding in this category enriches public spaces and public places for the enjoyment of the entire community.

Summary of Primary Emphasis: Black Hawk County Gaming Association is interested in awarding funds that make the Cedar Valley a stronger, better place to live. It places emphasis on proposals that enhance public facilities, create, replace, or upgrade substantial capital items, or create new opportunities. Projects must demonstrate the ability to leverage at least 50% of funds from other sources and show future project sustainability. Funding is limited to the seven-county region and to qualified, eligible 501c3 and 501c19 organizations located in the service area. Funding requests from counties other than Black Hawk County are accepted and considered once per year and must first apply to their local community foundation. Visit the online grant management process for more information at www.bhcgga.org.

List of Primary Grant Emphasis Areas:

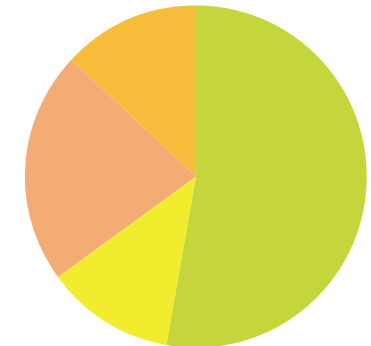

Health and Wellness - Along with access to quality health care we are concerned about attracting physicians to our community. And of course, mental health is an area we are committed to improving. Our ongoing commitment to a quality trail system is part of this effort as well. Walking Trails, Bark Park and Municipal Golf course improvements

Education - Collaboration among our employers and our educators has led to increased awareness among our youth regarding career opportunities. We have recently began the planning of a Training Center which will open doors for people in our community looking to develop marketable skills. The Village Early Childhood Center, new handheld computers for students and the new Training Center. We also make annual contributions to the local Scholarship Programs.

Economic Development - Working with local government agencies we strive to help fund projects that will ensure the continued infrastructure necessary for sustain growth in the private sector. City of Osceola – Workforce Housing Projects and infrastructure projects including a new water supply reservoir. This year we provided funding for Housing infrastructure.

Clinton County Development Association

Date Organized: March 1989

Website: www.clintoncountydevelopment.org

Nonprofit License Holder For:
Wild Rose Casino, Clinton

List of Board Members: Dave Sivright, Joel Dieckmann, Dawn Holesinger, Les Shields, Rita Hart, Jenny Green, Eric Gettes, Brig Tubbs, Margaret Wolf, Matt Stammeyer, Brenda Kay

Geographical Area Served: Clinton County

Total Number of Grants Committed in 2023: 36

Total Amount in Grants Awarded in 2023: \$2,352,695

List of Primary Grant Emphasis Areas:

Recreation/Art - The CCDA is a proud contributor to the vast array of recreational opportunities available in Clinton County. Projects include: Bickelhaupt Arboretum Enhancements, Showboat Theater Improvements, Placemaking/Art Walls in Clinton, Indoor Tennis & Pickleball Facility Upgrades, Clinton County Special Athletes Uniforms and Sports Equipment, and Pavilion upgrades for the Clinton County Agricultural Society.

Education - The CCDA has been dedicated to the task of providing support for the area education facilities. Examples are Performing Arts Center Upgrades for CCSD, New Playground at Northeast Elementary School, Library Improvements at Cal-Wheat Schools, and DeWitt Schools Playground improvements.

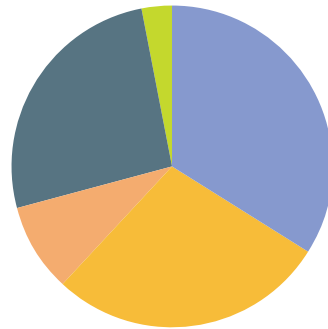

Safety - The CCDA is continually contributing to the safety of the county communities. For example: Andover Fire Dept Fire Engine Purchase, DeWitt Fire Tanker Replacement, DeWitt Fire Station Expansion, Delmar Fire Turnout Gear Replacement, and St. Joseph School Fire Alarm System Enhancements.

Health and Human Services - The CCDA takes pride in providing support for projects that promote healthier lifestyles such as: MercyOne Equipment Upgrades, Midwest Pets for Life Roof Replacement, Lost Nation Boosters Restroom Upgrades, Information Referral & Assistance Outdoor Food Pantry Box, My Gear Outreach Transportation Vehicle, L'Arche Clinton Transportation Vehicle, and Calamus Wheatland Community Fitness Center.

Economic Development - The CCDA is constantly looking for great projects that enhance economic development in Clinton County. For example: supporting the City of Grand Mound and their Splash Pad/ Park Improvements Project, Iowa Nice and their Transitional Work Supplies for New Refugees project, and the City of Delmar with their Depot Improvements.

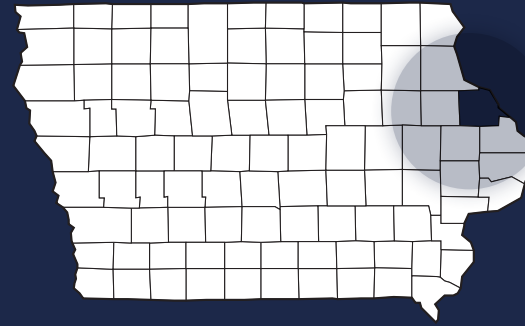

Summary of Primary Emphasis: The CCDA supports numerous nonprofit organizations and their projects within Clinton County, Iowa. We do not recognize an area or project type for emphasis, however, do remain alert for those projects that have the potential for economic development and increased employment opportunities. Projects for life saving protective equipment for fire departments have been well received.

We do not use a rubric or scoring method, but rather have each Board Member independently evaluate and rate (score) all grant applications determined to be eligible for CCDA funding. Projects that capture the hearts, minds, and imagination of a larger portion of Clinton County seem to receive higher scores. Those ratings are compiled and averaged, and funding allocations are spread across as much of the applicant field as possible. It should be no surprise that applications for funding seem to always outstrip the amount of available funds to grant.
